

## COVALENT UNIVERSITY

### Home to All Your Apache Training Needs!

Attend Covalent University and experience a wide range of training programs to improve your overall expertise and strengthen your skills. Covalent employs many of the foremost Apache experts in the world and has a number of comprehensive instructor-led onsite, online, as well as self-paced courses that will prepare you for all your Apache Web Infrastructure requirements. In addition, Covalent regularly offers very popular and free-of-charge webinars on a variety of Apache and other open source topics.

So, whether you require introductory-level, intermediate, or expert in-depth training, Covalent can provide the instruction you need to successfully deploy, maintain, or enhance your Apache Web infrastructure solutions.

Covalent currently offers four methods of training:

#### **On-site Training**

Let us come to you. On-Site training is available for both customers and partners and offers hands-on training for all your Apache Web Infrastructure solutions. Training sessions include both classroom lectures and hands-on lab exercises to provide the best combination of training. Covalent will work with you to ensure that all training room requirements are in place prior to the actual session.

#### **Live Online Training**

Live online classes lead by an instructor via telephone and a convenient webcast. Whether you are a system administrator, system integrator, or developer, learn from the foremost experts about Apache open source technologies from the comfort and convenience of your home or office.

#### **On-Demand Self-Paced Training**

On-Demand Self-Paced training makes training simple and convenient. These self-paced courses are segmented into a number modules which run anywhere from 30-90 minutes in length. Test yourself at the conclusion.

## Free Webinars

Regular (1-2 times per month) online webinars on a variety of topics – Apache and non-Apache alike.
